ABSTRACT

This report provides statistical data related to headcount enrollment, degrees awarded, institutional finance, and faculty salaries at Nebraska's 13 public and 17 independent colleges and universities through fall, 1991. The data were taken directly from the Integrated Postsecondary Education Data System survey forms submitted annually by the public and independent institutions. Following an introduction, a map shows the distribution of institutions across the state. A section of headcount enrollment data presents figures by total/full-time and part-time enrollment, by level of instruction, by undergraduate/graduate status, by age, and by ethnic category, and also gives a statewide 5-year profile. A section on degrees awarded presents data by sector and institution, by degree level, by ethnic category, by major discipline grouping, by statewide 5-year profile, and by subject area within institutions. An institutional finance section presents figures by revenue source; by expenditure category; by institution; and also provides a 5-year profile by state, sector, and institution. The final section on faculty salaries offers data by sector and institution; by institution and rank; by institution, rank and gender; and also shows percent by rank within institution; and percent tenured. INTRODUCTION

The information contained in this report was taken directly from the IPEDS (Integrated Postsecondary Education Data System) survey forms, submitted annually by the public and independent institutions at the request of the U.S. Department of Education.

The report provides statistical data related to headcount enrollment, degrees awarded, institutional finance, and faculty salaries at Nebraska's 13 public and 17 independent colleges and universities. An Executive Summary and an analysis of the data will be forthcoming in a supplemental document.

The Commission reports faculty salary information on a 9-month basis, computing all 11/12 month faculty contracts to 9-month contracts where necessary. Although the number of months (nine) is consistent, this report does not take into account the number of work days within each 9-month period.

Data reported for the University of Nebraska-Lincoln includes the Nebraska School of Technical Agriculture, a two-year institution located in Curtis, Nebraska. Additionally, Kearney State College became the University of Nebraska at Kearney on July 1, 1991, and is listed as such where 1991-92 figures are shown.

The Coordinating Commission for Postsecondary Education appreciates the efforts and cooperation of registrars, business officers, research analysts, and IPEDS Coordinators at the many institutions surveyed.
